

Anil Peter Educational Institute

INTRODUCTION

1.1 Overview

I have created a Educational website using wordpress.It is same as any other educational course. I have created a site and hosted on Godaddy platform. I've used Academic WordPress Theme.

I have installed elementor plugin futher , i added courses by creating a page courses offered.

1.2 Purpose

As it is online course site we can select any course at any time . It has been proven more beneficial in pandemic times. So online learning much in demand these days. As it contact and self paced. It is beneficial for students and educators.

2. LITERATURE SURVEY

2.1 Existing Problem

Due to pandemic all the educational institutions are closed so now online education need exist so the student can learn from anywhere at anytime

2.2 Proposed solution

So by creating an online course platform we can reach to student directly

3 THEORITICAL ANALYSIS

3.1 Block diagram

Diagrammatic overview of the project

Install Wordpress-----> installed themes -----> installed elementor and form plugins

-----> about us page- -----> courses offered-----> contact us -----> Provacy Policy

3.2 Hardware/Software designing

I have used only software requirements like Academic WordPress Theme ,elementor, and form plugin

4. RESULT

- ✓ Can open the site and select the ineterested course and contact us.

5. ADVANTAGES AND DISADVANTAGES

- ✓ We can visit the site and learn from any where at any time

DISADVANTAGES

- ✓ Stable interenet is required
- ✓ Can't experience classroom learning

6. APPLICATION

Online learning

FUTURE SCOPE

Creating live session by experts
